

SUPPLEMENTARY MATERIALS FOR

Chemonastic stalked glands in the carnivorous rainbow plant *Byblis gigantea* LINDL. (Byblidaceae, Lamiales)

Content:

Figures S1-5

Tables S1-5

Figure S1

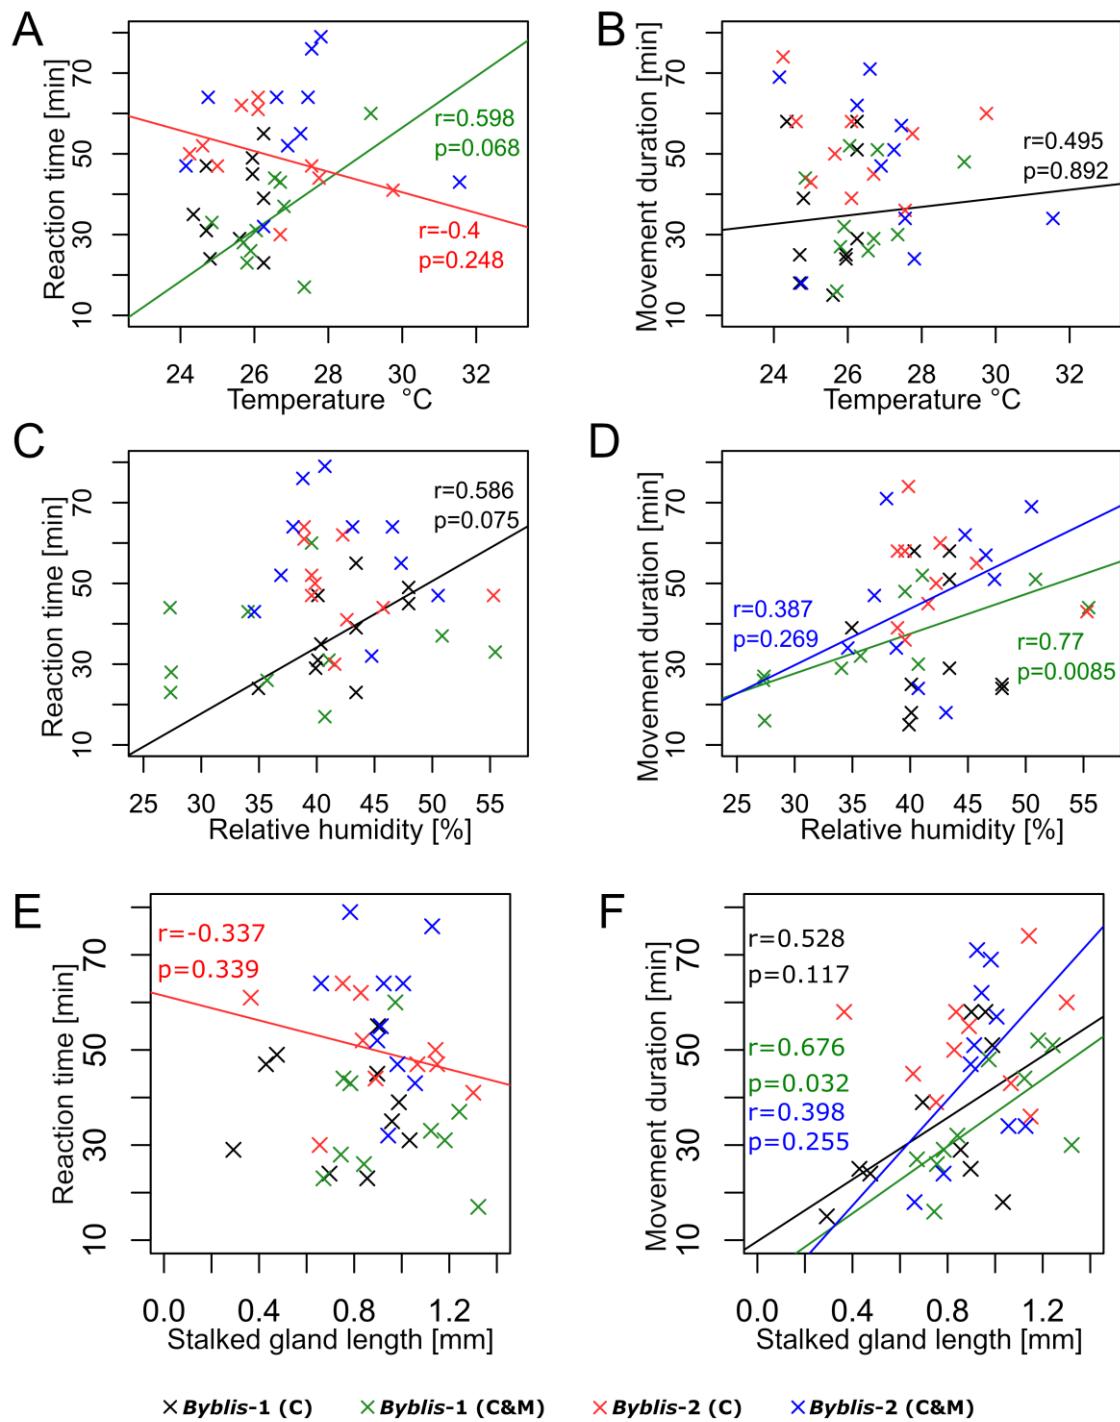

Figure S1. Shows the results from the correlation analyses between (A) reaction time and temperature, (B) movement duration and temperature, (C) reaction time and relative humidity, (D) movement duration and humidity, (E) reaction time and stalked gland length, and (F) movement duration and stalked gland length. Indicated are the two tested plants (*Byblis*-1 and *Byblis*-2) and the stimulation scenarios, i.e., pure chemical (C) and combined chemical and mechanical (C&M) stimulation.

Figure S2

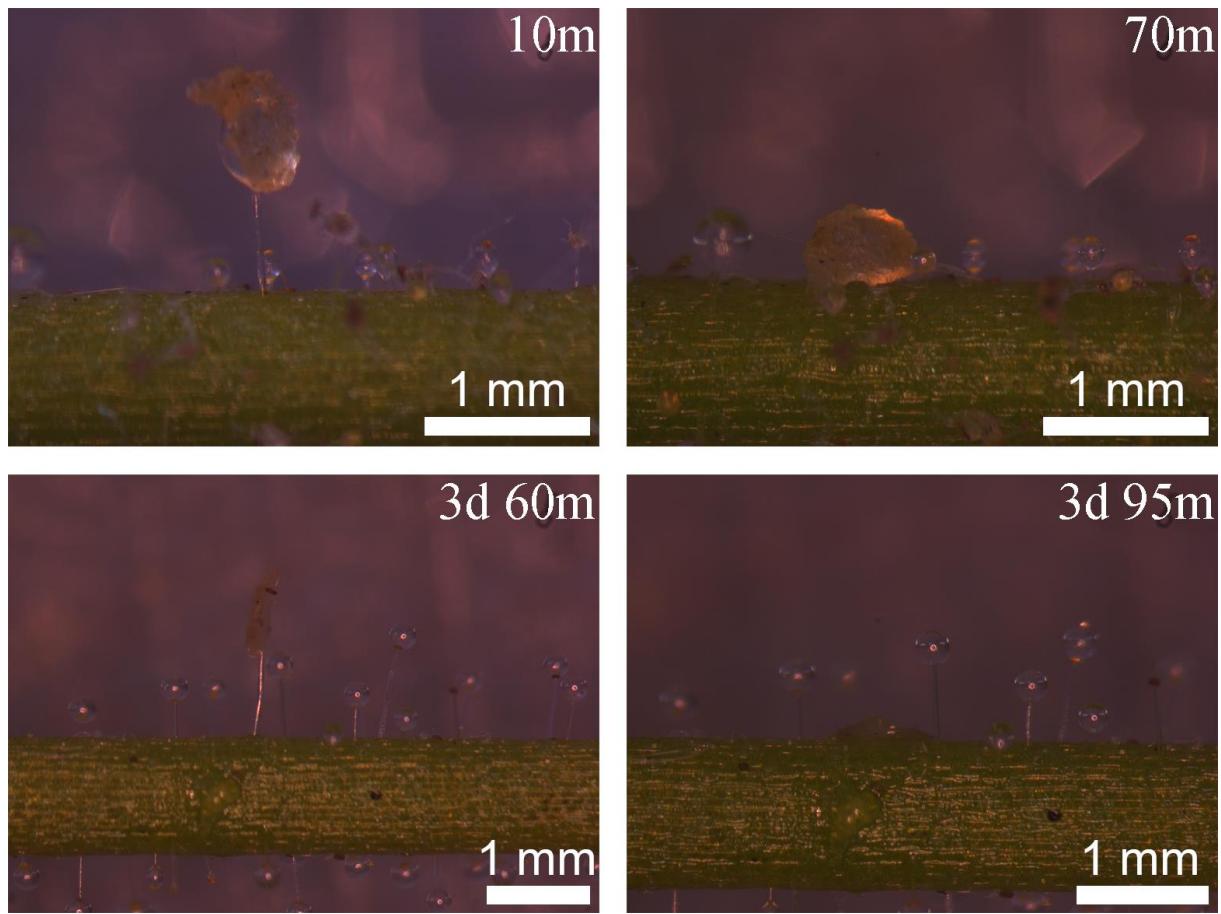

Figure S2. Shows the movement responses of stalked glands situated on the same cut-off leaf piece and stimulated with fish food flake fragments 10 minutes (upper images) and 3 days and 60 minutes (lower images) after detachment of the leaf piece.

Figure S3

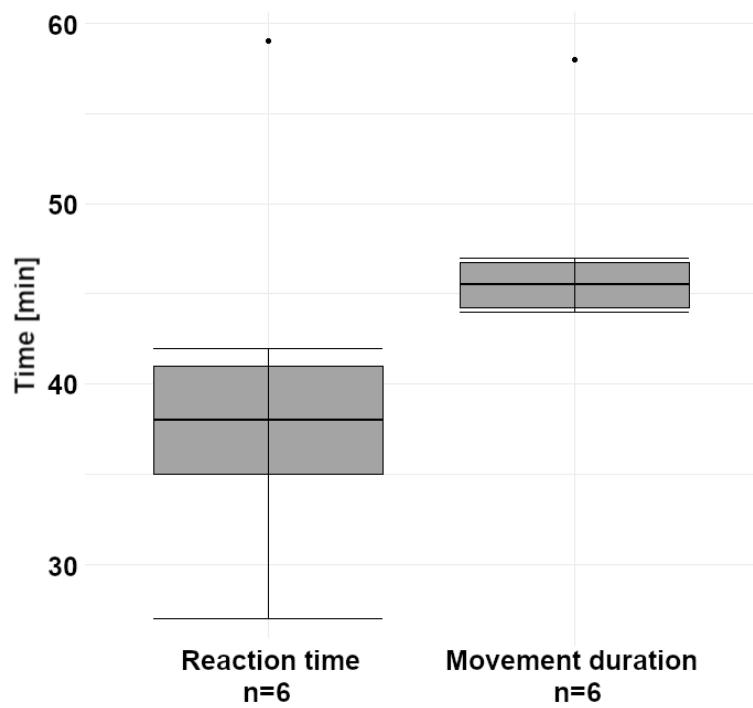

Figure S3. Shows reaction times and movement durations of stalked glands moving in paraffin oil.

Figure S4

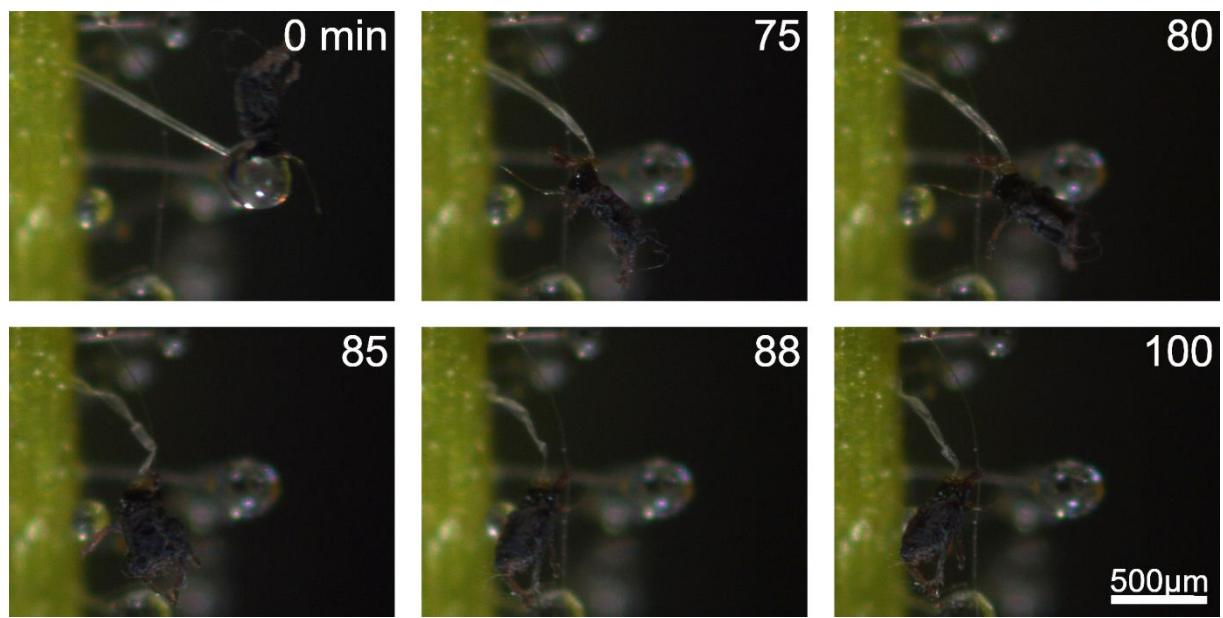

Figure S4. Shows the motion response and respective time scales [min] of a stalked gland stimulated with a dead aphid.

Figure S5

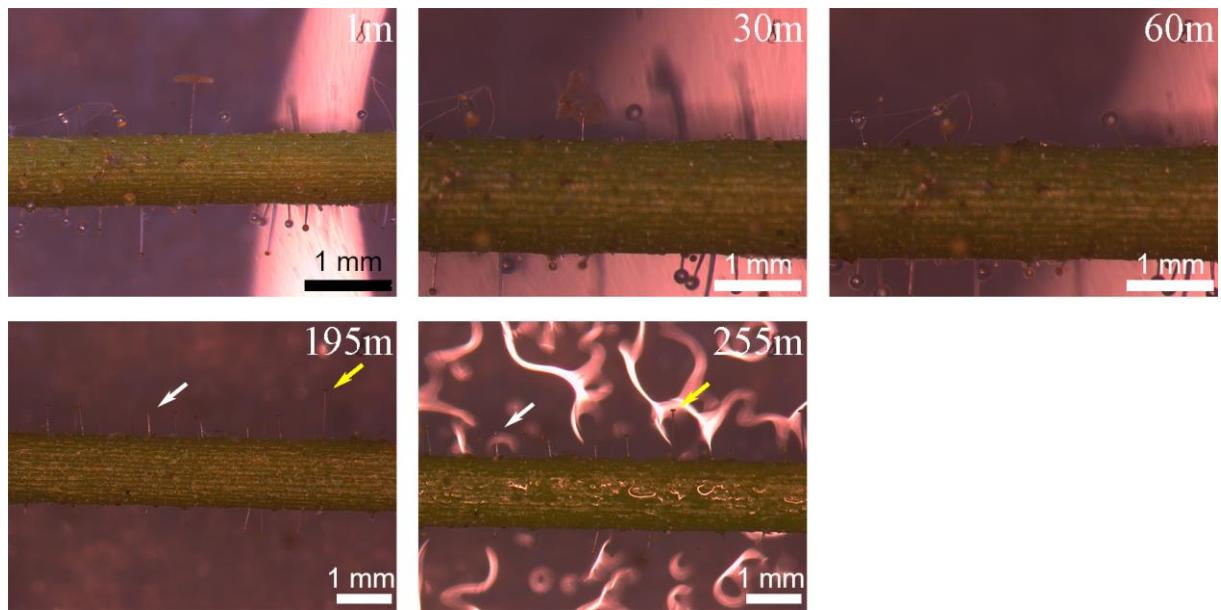

Figure S5. In the three upper images of Figure S5, the movement of a chemically stimulated stalked gland can be seen. The times indicated refer to the moment of stimulation. At minute 195, the rehydrated stalked gland (yellow arrow) and further other stalked glands (one indicated with a white arrow) are indicated. At minute 255, it can be seen that surrounding stalked glands produced glue drops, whereas the stimulated and rehydrated stalked gland did not produce glue.

Table S1

Table S1. Provides the original data for the stalked gland length measurements. US = upper surface of leaf; LS = lower surface of leaf.

| Plant | Stalked gland length [mm] | Position on leaf |

| 3 | 9 | US | 4 |
| 3 | 21 | LS | 4 |

Table S3

Table S3. Provides the original data for the stalked gland reaction times and movement durations, relative humidity and temperature, and respective stalked gland lengths in the three stimulation scenarios. C = chemical stimulation; M = mechanical stimulation; C&M = combined chemical and mechanical stimulation.

| Stimulus scenario | Plant number | Leaf number | Stalked gland length [mm] | Reaction time [min] | Movement duration [min] | Relative humidity (minimum-maximum; mean) [%] | Temperature (minimum-maximum; mean) [°C] |
|-------------------|--------------|-------------|---------------------------|---------------------|-------------------------|---|--|
| C | 1 | 3 | 0.696 | 24 | 39 | 33.7-36.2; 34.95 | 24.3-25.3; 24.8 |
| C | 1 | 2 | 0.292 | 29 | 15 | 38.2-41.6; 39.9 | 25.4-25.8; 25.6 |
| C | 1 | 3 | 1.033 | 31 | 18 | 38.5-41.7; 40.1 | 24.2-25.2; 24.7 |

Table S4

Table S4. Provides the original data for the measured reaction times and movement durations in the two temperature regimes, i.e., warm (22 °C) vs. cold (12 °C).

| Reaction time [min] @ 22° C | Movement duration [min] @ 22° C | Reaction time [min] @ 12° C | Movement duration [min] @ 12° C |
|--|--|--|--|
| 40 | 56 | 52 | 68 |
| 28 | 44 | 54 | 73 |
| 46 | 42 | 84 | 53 |
| 34 | 55 | 56 | 89 |
| 38 | 51 | 63 | 92 |
| 24 | 42 | 48 | 103 |
| 50 | 63 | 44 | 82 |
| 41 | 58 | 38 | |

Table S5

Table S5. Provides the original data for the cellulose microfibril angle measurements on the five different stalked gland sections.

| Stalk cell number | Section 1 [°] | Section 2 [°] | Section 3 [°] | Section 4 [°] | Section 5 [°] |
|------------------------------|-------------------------|-------------------------|-------------------------|-------------------------|-------------------------|
| 1 | 42.8 | 38.5 | 32.3 | 31.3 | 21.8 |
| 2 | 45.2 | 39.7 | 34.8 | 33.9 | 30.6 |
| 3 | 41.7 | 36.9 | 37.9 | 33.9 | 27.2 |
| 4 | 33.5 | 33.7 | 30.6 | -- | -- |
| 5 | 41 | 45.6 | 28.3 | 26.1 | 27.9 |
| 6 | 38.9 | 37.5 | 35.3 | 35.4 | 26.1 |
| 7 | 37.2 | 33.8 | 35.8 | 28.7 | 22.6 |
| 8 | -- | -- | -- | 30.7 | 24.7 |
| 9 | 38.9 | 36.5 | 30.4 | 33.2 | 25.3 |
| 10 | 36.2 | 34.9 | 35.4 | 32.3 | 26 |
| 11 | 38.5 | 37.8 | 30.5 | 32.6 | 18.4 |
| 12 | 37.6 | 39.5 | 36.4 | 34.1 | 23.8 |
| 13 | 42.9 | 37.8 | 32.7 | 32.1 | 25 |
